

# Lions Clubs International Brand Guidelines

---

How to represent the  
world's premier service  
organization.

# How to use this manual

---

This manual contains approved standard elements of the Lions Clubs International visual and verbal identity system. It has been prepared and distributed to ensure the success of this identity.

Please use and adhere to these guidelines, which are fundamental yet flexible enough to allow for individual expression.

# Table of contents

## 8.0 // Brand questions

- 8.1 Questions about brand

A person is seen from behind, sitting at a desk and working on a laptop. The laptop screen displays a document with text and a sidebar. The person's hands are on the keyboard. To the right of the laptop, there is a white cup with a black straw and some sticky notes. The scene is dimly lit, with the primary light source being the laptop screen.

# 1.0 // Global verbal guidelines

# 1.1 Speaking in Lion

## Mission statement

To empower volunteers to serve their communities, meet humanitarian needs, encourage peace and promote international understanding through Lions clubs.

## Vision statement

To be the global leader in community and humanitarian service.

## Organizational statement

We Serve. We have more volunteers in more places than any other service organization in the world. We are friends, neighbors and leaders ready to help our communities grow and thrive.

## CORE MESSAGES

**We serve where we live.** We are ready whenever and however our communities need us.

**We are global.** We are the largest service club organization on earth. We bring unprecedented reach and compassion to our service.

**We give 100 percent.** Every dollar raised locally goes back into the community. We also help out our global neighbors through the generous support of Lions Clubs International Foundation.

**We do it ourselves.** We do whatever is necessary to help our local communities and our global community. Whether that means raising money or rolling up our sleeves, we do whatever it takes and we do it all on our time.

**We have served humanity for more than a century.** Lions Clubs International is one of the greatest stories on earth. For over 100 years, Lions have been changing lives and making the world a better place for all. Local communities depend on their clubs because we are trusted

friends and neighbors who have a history of putting others first, and the Lions International name and legacy inspires trust.

**We are in good company.** We have fun in our clubs. We treat new members like old friends, and we know that there's a special bond that unites Lions around the world.

**We're open.** We are generous men and women who want to help. And we're always looking for more caring people who want to make a difference with us.

**We are taking on global challenges together.** Lions are serving locally to meet needs in their communities, and we are uniting globally around some of the largest challenges facing humanity: diabetes, environment, hunger, vision, and childhood cancer. And we're building on our tradition of supporting youth by developing new ways to engage them as partners and leaders in service.

# 1.2 Mechanics

## Voice

By utilizing a stylized plain-speech, Lions Clubs International's voice embodies a variety of desirable attributes and tones.

Writing as Lions International means:

- 1 Short and to the point
- 2 Active over passive voice
- 3 Third person point of view as a default, however, first and second person can be used if appropriate

## Tone

The voice of the organization has many tones. The primary balance rests between playful and serious. When speaking about the organization and its members, a more playful tone is acceptable. When writing about service stories and the people we serve, it's important to speak with empathy and thoughtfulness.

- 1 Trustworthy
- 2 Empathetic
- 3 Informative
  - Sharp
  - Witty
  - Sophisticated
  - Relatable
  - Welcoming
  - Honest

## Personality

Sophisticated, even with its sleeves rolled up. This personifies Lions International as a whole. The brand speaks in a manner that is cool but serious. It uses wit and clever turns of phrase without being cliché or over the top. It's eloquent but can get down to business at a moment's notice.

## Style

To create a stylized, simple and effective experience, Lions International has outlined the following style points:

### HEADLINES AND SUBHEADLINES

- 1 Headlines are high-level, emotional and engaging
- 2 Subheadlines are explanatory, helping define or pay off headlines
- 3 Sentence case, with end punctuation when a complete sentence

### BODY COPY

- 1 Strong leads deliver key messages and invite readers in
- 2 Varying sentence length creates pacing and flow throughout
- 3 AP style in general, but rules are broken to create effect (e.g., fragments, starting sentences with conjunctions)

### CALLS TO ACTION

- 1 Are strong, inviting and clear
- 2 Are visually packaged or highlighted so they won't be missed
- 3 Deliver advertised value and provide real benefits

# 1.3 Language

## The organization

Writing for Lions Clubs International will present many instances where the organization's name and references to Lions International will need to be used. To help keep the flow of the writing as articulate as possible, we've developed the following usage guidelines.

### BOILERPLATE

#### (To be used with press releases and any media requests)

Lions Clubs International is the largest service club organization in the world. Our 1.42 million members in more than 48,000 clubs are serving in over 200 countries and geographic areas around the globe. Since 1917, Lions have strengthened local communities through hands-on service and humanitarian projects, and we are able to extend our service impact through the generous support of our Lions Clubs International Foundation. We are focused on supporting sight, hunger, the environment, childhood cancer and our new global cause, diabetes, to help address some of the biggest challenges facing humanity. Lions have set an ambitious goal of helping 200 million people per year so we can bring even more service to more people than ever before. For more information about Lions Clubs International, visit [lionsclubs.org](https://lionsclubs.org).

### LIONS CLUBS INTERNATIONAL

- First usage: Lions Clubs International
- Second usage: Lions International
- Use “organization” rather than “association” when referring to Lions International as a general entity.

Avoid the following terms when referring to the organization:

- Lions Clubs
- Lions
- LCI

### LIONS

- “Lions” refers to our members, not our organization, and is always capitalized.
- Use “Lions” when talking about collective attribution (e.g., Lions’ service, Lions’ compassion, Lions’ commitment).
- Use “Lions club” and “Lions clubs” with this case when referring to clubs.

# 1.4 Resources

---

## Headline bank

To help guide your extension of the Lions Clubs International personality and voice, utilize the style and tone of these examples.

### 1 **Kindness matters.**

---

At home and around the world.

---

### 2 **Let your service roam.**

---

Celebrating 100 years of uncommon kindness.

---

### 3 **On the frontlines of service.**

---

Today and every day.

## 2.0 // Global visual guidelines

# 2.1 Emblem and nameplate

## The emblem

The Lions Clubs International emblem (A) has been refreshed to represent the contemporary and evolving character of the organization today while celebrating its history and international renown. Subtle updates have modernized the emblem and greatly improved its legibility and reproducibility.

The only acceptable interpretation of the emblem is pictured on this page. It may not be reconstructed or altered in any way. It must be reproduced from production-quality art or from high resolution digital files.

The Lions International emblem has been designed to function as part of a flexible and cohesive visual system. When combined with the nameplate, it will be referred to as a signature.

**A full-color emblem (B) has been created for use at the club level. Usage should be limited to embroidered patches and other club supplies items. It should never be used in print or digital applications.**

When used for embroidery, the threads should match the following colors: Pantone® 7406, Pantone® 450, Pantone® 484, Pantone® 287 and white.

## Lions Clubs International

### The nameplate

The name of the organization comprises the nameplate. Its unique typography, together with the emblem, gives the Lions International signature a distinctive, proprietary character.

The nameplate may not be retyped, reconstructed or altered in any way (vector art files of the signature are provided). It should be used with the emblem as part of the signature. It should not be used alone.

The Lions Clubs International Trademark Policies grant our members automatic authorization to use the organization's registered trademarks in a variety of applications including, but not limited to, printed materials reasonably related to club & district operation and in digital media applications such as websites and social media.

Any use of the trademarks not specifically authorized by the Trademark Policies would require written permission from Lions Clubs International headquarters and may be subject to royalties for trademark use. Requests for trademark use may be sent to [trademarkuse@lionsclubs.org](mailto:trademarkuse@lionsclubs.org).

## 2.2 Signatures

### The primary signature

**The primary element of the identity is the signature. It consists of two components—the emblem and the nameplate.**

The two signatures shown are the primary configurations. They are the preferred choice for all applications.

Signatures may never be re-created or redrawn. Always use the approved electronic art, available online.

### Secondary signature lockups

**Alternate signature configurations have been created to allow for flexibility and creativity.**

Signatures may never be re-created or redrawn. Always use the approved electronic art, available online.

## 2.3 Signature personalities

### Lockup colors

**Yellow, blue, gray and black are the colors that make up the signature coloration. The only acceptable options are shown here.**

The 3-color, 2-color and 1-color signatures should be placed on a light-colored background to allow for maximum legibility. Make sure the background color works well with the signature colorations.

The solid color signatures may be placed on any color background as long as there is enough contrast for legibility.

Lions International signatures may be reproduced over photographs. The area of the chosen photo must be relatively simple, and it must provide sufficient contrast for legibility.

## 2.4 Signature spacing and size

### Clear space

To create maximum impact, keep the space around the Lions Clubs International signatures free from other text and graphics.

When using the signature in layout, placement of surrounding elements (e.g., text, photos and other graphic elements) should respect the clear space guideline shown above. This includes placement in email and all digital applications.

Minimum clear space around the signature is determined by measuring the height of the "L" in the center of the emblem.

Only one of the primary configurations of the signature is shown here as a sample. These principles apply to the other versions as well.

### PREFERRED SIZE

0.5625"  
(1.42875 cm)

**Lions Clubs International**

### MINIMUM SIZE

0.375"  
(0.9525 cm)

**Lions Clubs International**

### Preferred size

For optimum legibility, the Lions International signatures should be used at the preferred sizes.

The signature size is measured by the height of the emblem. For most print applications, the signature should be used at the preferred sizes, 0.5625" (1.42875 cm) for primary and secondary signatures and 0.75" (1.905 cm) for tertiary signatures.

To ensure legibility, the smallest size at which the signature may be used is 0.375" (0.9525 cm) in height.

Some examples are shown above. These principles apply to all the configurations.

## 2.5 Logo usage

### ACCEPTABLE

**Lions Clubs International**

### UNACCEPTABLE

Do not distort.

**Lions Clubs International**

Do not reconfigure elements.

**Lions Clubs International**

Do not alter colors. (The only acceptable color combinations are shown on page 2.3.)

**Lions Clubs International**

Do not screen back colors.

**Lions Clubs International**

Do not alter the typeface.

**Lions Clubs International**

Do not crop the signature.

**Lions Clubs International**

Do not tilt.

**Lions Clubs International**

Do not put the logo over a pattern.

**Lions Clubs International**

### Unacceptable logo usage

The examples above show the Lions Clubs International identity in configurations, treatments and manipulations that are unacceptable. This list is not exhaustive.

Only one of the primary configurations of the signature is shown here as a sample. These principles apply to the other versions as well.

## 2.6 Footer content

### HORIZONTAL TREATMENT

Included in the footer is the Lions International signature, website address, creation date and language code.

### VERTICAL TREATMENT

### The universal footer

For consistency across all print pieces, a universal footer has been created. This is to be used for all important Lions Clubs International correspondence as a way to increase brand awareness.

Both a horizontal and vertical treatment have been created to allow for maximum flexibility.

The footer content is set in 7.5 pt. Helvetica Neue Roman with 9 pt. leading. The website address is set in Helvetica Neue Bold.

A man and a woman are sitting at a wooden table, looking at papers and smiling. The man is on the left, wearing a dark jacket, and the woman is on the right, wearing a red and black patterned jacket. They appear to be in a collaborative work or study environment. The image has a dark overlay, and the text "3.0 // Design basics" is centered in white.

**3.0 //** Design basics

# 3.1 Color palette

## Primary color palette

The Lions Clubs International primary color palette consists of yellow, blue and gray.

These colors were chosen to complement the refreshed emblem while maintaining distinct brand equity.

The primary palette is to be used extensively for large areas of colors fills, typographic treatments and as accents.

## The secondary color palette

The Lions International secondary color palette complements our primary palette. These colors provide an extension to the brand and should be used sparingly.

The secondary palette colors work well as accent colors and are a way to add energy and emphasis.

As a general rule, light colors work best over dark colors. For example, yellow, white, and cool gray may work well atop the other darker, richer hues. When placing text on top of color, always ensure that proper contrast and legibility remain intact.

## 3.2 Typography

Helvetica Neue 35 Thin

We're making a world of difference

Helvetica Neue 35 Thin

*We're making a world of difference*

Helvetica Neue 45 Light

We're making a world of difference

Helvetica Neue 45 Light Italic

*We're making a world of difference*

Helvetica Neue 55 Roman

We're making a world of difference

Helvetica Neue 56 Italic

*We're making a world of difference*

Helvetica Neue 65 Medium

**We're making a world of difference**

### Primary typeface

**Helvetica Neue** has been chosen as the primary typeface for Lions Clubs International communications. The different weights in this typeface allow for flexibility and creative expression in text and display.

Helvetica Neue 66 Medium Italic

***We're making a world of difference***

Helvetica Neue 75 Bold

**We're making a world of difference**

Helvetica Neue 76 Bold Italic

***We're making a world of difference***

Helvetica Neue 95 Black

**We're making a world of difference**

Helvetica Neue 96 Black Italic

***We're making a world of difference***

Helvetica 77 Condensed Bold

**We're making a world of difference**

Stylistically, a general recognition of hierarchy needs to play a role in layout. Consider using a larger, bold font for headlines, a medium weight for subheadlines and a lighter weight for body content.

## 3.3 Typography extension

---

Adobe Caslon Pro Roman

We're making a world of difference

Adobe Caslon Pro Italic

*We're making a world of difference*

Adobe Caslon Pro Semibold

**We're making a world of difference**

Adobe Caslon Pro Semibold Italic

***We're making a world of difference***

Adobe Caslon Pro Bold

**We're making a world of difference**

Adobe Caslon Pro Bold Italic

***We're making a world of difference***

### Secondary typeface

**Adobe Caslon** has been chosen as the secondary typeface for Lions Clubs International communications. This font should be used in areas of longer form text that fall beneath headlines. It should not be used as headlines or subheadlines.

Stylistically, a general recognition of hierarchy needs to play a role in layout. Consider using a larger, bold font for headlines, a medium weight for subheadlines and a lighter weight for body content.

## 3.4 Default typography

---

Helvetica

We're making a world of difference

Arial

We're making a world of difference

Times

We're making a world of difference

### The default typefaces

**Helvetica, Arial and Times have been chosen as the default typefaces for Lions Clubs International communications.**

They should be used for word processing and internal communications when the primary and secondary typefaces are not available.

Stylistically, a general recognition of hierarchy needs to play a role in layout. Consider using a larger, bold font for headlines, a medium weight for subheadlines and a lighter weight for body content.

# 3.5 Graphic elements

## 1 THE YELLOW UNDERLINE

The yellow underline draws attention and provides emphasis on a certain point in the content. It is also used to break content and act as a divider.

## Get ready to m a world of diffe

Welcome to the largest service organization in the world

You joined a local club to make a difference in your community. You are making a difference. We are 1.4 million men and women who believe that kindness matters. We are Lions. // And now

## 2 FORWARD ANGLES

Diagonal tints and overlays are used to add energy and visual interest. Angles should always follow the samples provided.

## 3 COLOR FILLS AND OVERLAYS

An overlay allows for imagery and content to both be primary features. It is also a great way to mask poor image quality.

## Horizontal rule, colors and overlays

The following techniques are central to the overall look and feel. Use these examples as a guide when creating within the Lions Clubs International brand.

**4.0** // Photography

# 4.1 Visual expression

## Lions in action

Lifestyle photography should have a candid style with close interaction between the primary subjects in the composition. They should show Lions having a positive impact within their community and a strong focus on the beneficiaries.

Imagery should possess warmth, friendliness and a positive spirit. Diversity in age and ethnic background should also be considered.

When choosing or taking photographs, negative space should be considered ensuring ample room for messaging.

Consider the use of depth of field as a narrative story-telling device whenever possible. This will provide mood as well as a clear focus on the subject.

## 4.2 Lions in focus

### Lion-centric photography

When featuring Lions in photography, imagery should use depth of field to allow for the Lion to be the focus. Images should have a natural setting, nothing obviously staged.

Lions expressions can be wide ranging—from a simple smile to looking off in the distance. The overall vibe should be positive and upbeat or focused and intentional.

## 4.3 Contrast and vibrance

### BEGINNER

**Before adjusting brightness, contrast or exposure**

**After adjusting brightness, contrast or exposure**

Using photo-editing software, find and adjust settings for brightness, contrast and/or exposure. To ensure the image looks as natural as possible, always adjust gradually and apply one setting at a time until the desired outcome is achieved.

### ADVANCED

**Before adjusting photo balance, adding warmth and a light source**

**After adjusting photo balance, adding warmth and a light source**

Using photo-editing software, find the settings for maximum control over image quality. Once the desired outcome is achieved, warmth, vignettes and glows can be added and edited in their own layer. These techniques create mood and a more polished looking image.

If available, you may access RAW settings for complete control over exposure.

To ensure the image looks as natural as possible, always adjust gradually and apply one setting at a time until the desired outcome is achieved.

### Adjusting for quality photography

**Photography that is bright and well-balanced creates a sense of positivity and forward momentum for our Lions. Imagery often lacks appropriate light balance and contrast. In order to display imagery in its best state, editing techniques may be applied.**

While photo editing is the judgment of those editing photos, it is important to adjust the image to its most natural state and keep the image as realistic looking as possible.

The above examples represent a few simple ways to edit a photograph.

## 4.4 Giving credit

---

Photo by: sloba

Photo by: sloba

### How to credit

**The name of the photographer or organization may be required for certain images.**

Photo credits are typically placed within an image on the bottom left or just underneath an image. If either of these placements do not work, they may be placed in other areas that do not draw attention away from the subject.

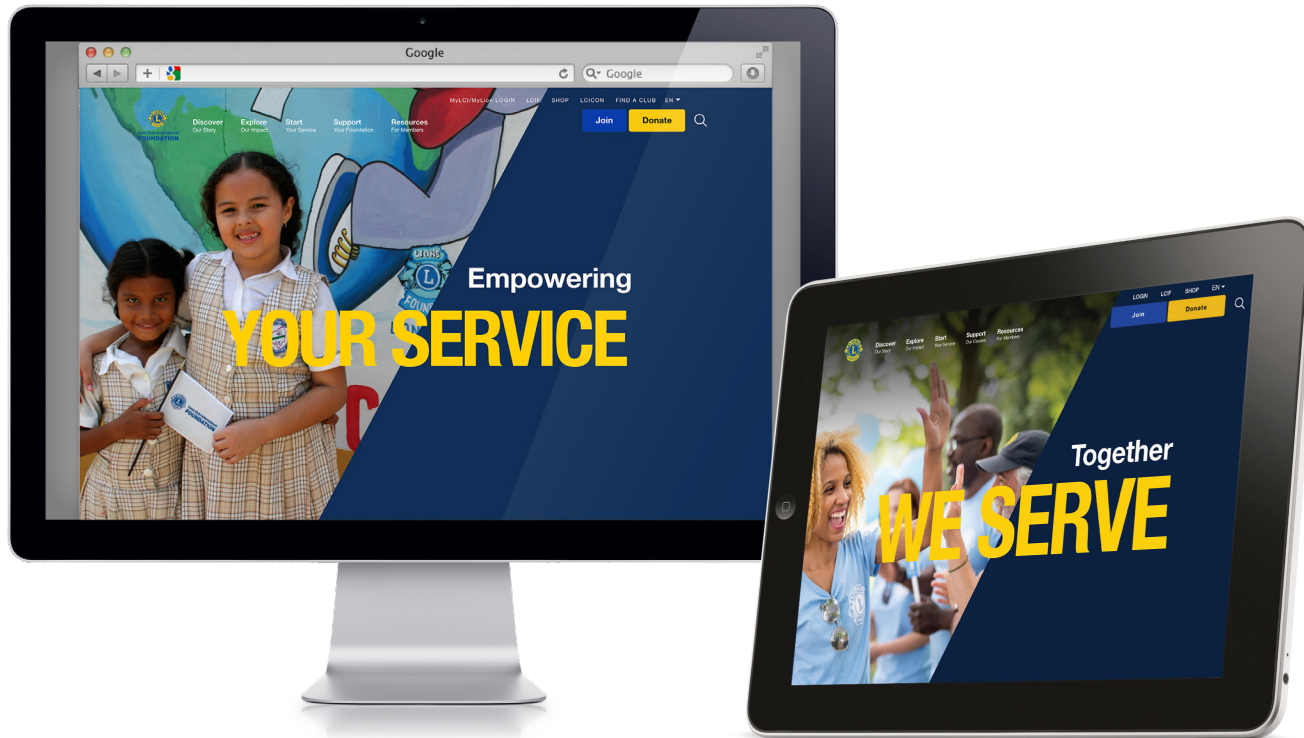

Credit content is set in 7.5 pt. Helvetica Neue Roman with 9 pt. leading.

A photograph of an elderly woman with short, grey hair, wearing a light pink t-shirt and patterned shorts. She is sitting on a light-colored metal chair with a decorative lattice backrest. She is holding a clear glass of water in her right hand and a magazine in her left hand, looking down at it. The background shows some green foliage and a blurred outdoor setting. The image has a semi-transparent dark overlay.

## Primary and secondary palettes

Each global cause has been assigned a unique micro-color palette to differentiate it from the others. These are to be used together with the Lions Clubs International palettes when marketing a cause.

When multiple causes are represented, their corresponding palettes should be present as well.

## 6.2 Typography

Helvetica Neue Ultra Light

1 Dedicated to diabetes.

We lead communities from awareness to action.

Helvetica Neue Medium Condensed

2 We serve the planet.

Our environment deserves our best.

3 Lions vs. Hunger.

Serving so others can grow and thrive.

4 Our vision is to help others'.

Opening eyes to new possibilities.

5 1.4 million helping hands for children with cancer.

We bring hope to the next generation.

### Primary typeface

**Helvetica Neue** has been chosen as the primary typeface for Lions Clubs International communications. The global causes use a limited palette of fonts—featuring a light treatment above the divider, corresponding with the cause color, and bolder type below.

The above examples are samples for hierarchy and treatment.

## 6.3 Iconography

DIABETES

ENVIRONMENT

HUNGER

VISION

CHILDHOOD CANCER

### An icon for every cause

**Each of our global causes has an icon associated with it.**

These are to be used in all marketing of individual causes to help create unique branding.

When all causes are featured, all icons should be included, or none.

## 6.4 Visual expression

### Service in action

When using photography, it should strongly relate to the cause being featured. Imagery should have a candid style with close interaction between the primary subjects in the composition.

Photography may also use an overlay from the cause's color palette (see next page for example).

# 6.5 Visual examples

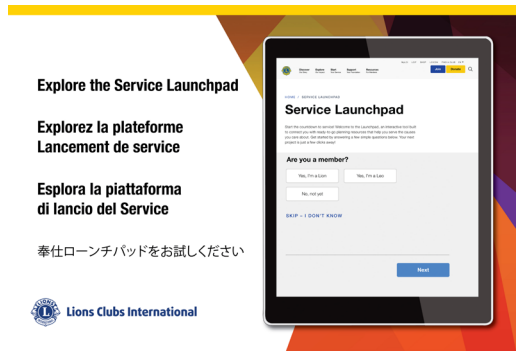

The growing diabetes epidemic is nothing short of staggering. According to the International Diabetes Federation, the number of adults living with the disease is expected to reach 629 million by the year 2045. In the face of such a powerful challenge to global health and well-being, what difference can one person possibly make? Every journey begins with a single step. Serving in diverse communities all over the world, over 1.4 million Lions and Leos now have a unique chance to change the fight against diabetes, one act of kindness at a time.

7.0 // Lions Clubs  
International  
Foundation

# 7.1 Lions Clubs International Foundation

## Our Foundation

Lions Clubs International Foundation (LCIF) is a key partner of Lions International, and our missions and messages are closely aligned. It is important to know how we refer to LCIF when writing about the Foundation and how we speak about it. The following guidelines provide direction for writing clearly and consistently about LCIF.

### NAME USAGE

- First usage: Lions Clubs International Foundation (LCIF)
- Second usage: LCIF
- Third usage: The Foundation, Your global Foundation, Our global Foundation, Our Foundation

Note the following:

- When “Foundation” is used as a shorthand for Lions Clubs International Foundation, upper case “Foundation.”

### TONE

- While the voice, style and personality of the Foundation will remain consistent with the approach for Lions International (pg. 7), the tone will be slightly different. While Lions International utilizes wit and playfulness at times, the Foundation should always speak directly and with an appropriate level of seriousness to respect the gravity of the needs being addressed and the dignity of the people we serve, as well as to express our sincerity and appreciation when asking for contributions.

### BOILERPLATE

- **Lions Clubs International Foundation (LCIF)** is the charitable arm of Lions Clubs International, the world’s largest service club organization, with 1.42 million members in more than 200 countries and geographic areas. Since 1968, LCIF has funded humanitarian service through financial gifts from Lions International members, the general public, and partners from the corporate, government and non-government sectors. To build a more promising future for the world, LCIF is increasing its support of efforts to combat vision problems, provide valuable life skills to youth, respond to major catastrophes, and build programs to address the needs of at-risk and vulnerable populations. LCIF is also working to reduce the prevalence of diabetes and improve quality of life for those living with the disease, and is expanding its global causes to include childhood cancer, hunger and the environment while raising funds to empower even more service from Lions. For more information, visit [lcif.org](http://lcif.org).

## 7.2 Signatures

### Horizontal signature

**The primary element of the identity is the signature. It consists of two components—the emblem and the nameplate.**

The two signatures shown are the primary configurations. They are the preferred choice for all applications.

Signatures may never be re-created or redrawn. Always use the approved electronic art, available online.

### Vertical signature

**Alternate signature configurations have been created to allow for flexibility and creativity.**

Signatures may never be re-created or redrawn. Always use the approved electronic art, available online.

## 7.3 Signature personalities

### Lockup colors

**Yellow, blue, gray and black are the colors that make up the signature coloration. The only acceptable options are shown here.**

The signatures should always be placed on a background that allows for maximum legibility. Light colored backgrounds generally work well for these signatures.

Foundation signatures may be reproduced over photographs. The area of the chosen photo must be relatively simple, and it must provide sufficient contrast for legibility.

# 7.4 Color palette

## YELLOW

Pantone® 7406  
0C 17M 100Y 0K  
235R 183G 0B  
HTML #EBB700

## BLUE

### Primary color palette

The Foundation's primary color palette consists of yellow and blue.

These colors were chosen to complement the core Lions International brand color palette.

The primary palette is to be used extensively for large areas of colors fills, typographic treatments and as accents.

### The secondary color palette

The Foundation's secondary color palette complements our primary palette. These colors provide an extension to the brand and should be used sparingly.

The secondary palette colors work well as accent colors and are a way to add energy and emphasis.

As a general rule, light colors work best over dark colors. For example, yellow, white, and cool gray may work well atop the other darker, richer hues. When placing text atop of color, always ensure that proper contrast and legibility remain intact.

## 7.5 Iconography

DIABETES

ENVIRONMENT

VISION

CHILDHOOD CANCER

DISASTER

HUMANITARIAN  
SUPPORT

YOUTH

### An icon for every cause

**Each of our global causes has an icon associated with it.**

These are to be used in all marketing of individual causes to help create unique branding.

When all causes are featured, all icons should be included, or none.

# 7.6 Visual expression

## Lions affecting change

Captured photography should always be used when featuring the Foundation. Imagery should have a candid style with close interaction between the primary subjects in the composition. They should show Lions providing support within their community and the need for action of the causes.

Diversity in age, gender and ethnic background should also be considered.

When choosing or taking photographs, negative space should be considered ensuring ample room for messaging.

Consider the use of depth of field as a narrative story-telling device whenever possible. This will provide mood as well as a clear focus on the subject.

# 8.1 Questions about brand

---

## Aligning with brand

Having a unified brand creates a consistent identity for Lions and Lions International at both the local and global level. If you have questions on the contents of the brand guidelines or branding questions in general, contact us at [lionsbrand@lionsclubs.org](mailto:lionsbrand@lionsclubs.org). You can also contact Andrea or Chris with questions related to our visual or verbal brand.
